## Falls: Measuring the impact of what happens

There are a number of ways you can assess the impact of an event. Join us as we discuss Lothian's approach to this and hear from Alisdair McDonald and Shaima Muhammed about their project *Costing Falls with Harm and comparing these between patients with and without dementia*.

The project used Falls with Harm as an example of how to use costings to demonstrate the impact of quality improvement projects.

Learn more about how this work can be duplicated to fit a range of objectives.

### **Dates of Future Meetings:**

26<sup>th</sup> May, 3.00pm - 4.00pm

25<sup>th</sup> August, 5.00pm – 6.00pm

24<sup>th</sup> November, 3.00pm – 4.00pm
